

Product Application

This tag is designed for product tracking customized products. It is composed of silicone material, and a small chip insied, It is good for fixed on curved object with hole or adhesive. Save the manpower cost, easy process management optimization.

Production Introduction

Material	: silicone
Dimension	: 80*25*2.2mm
Weight	: 5g
Color	: gray, white, blue or customized

Product Feature

Working frequency	: 840-960MHZ
Chip	: Alien H3 (or HF.LF)
Standard agreement	: ISO18000-6C, EPC Class I Gen 2
Reading Distance	: 6m (Fixed reader)
Working life	: reused
Working temperature	: -40° ~ +120° (120°/30minutes)
