

P Product Application

RFID-LD-UHF-01 tag is the best choice for harsh working environment. It is composed of plastic package, RFID chip inside. Widely used in garment factories, strong washing, chemical raw materials control etc. It is a wear-resistant, high temperature resistant, acid and alkali safe and green tag.

P Production Introduction

Material	Plastic (PPS)
Dimension	Oval shaped 40x24x2.2 mm.
Weight	2.6 g.
Color	Black

P Product Feature

Working frequency	840 ~ 960 MHz.
Chip	Alien H3
Standard agreement	ISO18000-6C, EPC Class I Gen 2
Reading Distance	3m with Fix reader
Working life	200 times , reused
Working temperature	40° ~ 200° ,acide or alkali (PH6,20°/10h) , work normaly
Test condition	Withstands high temperatures, Acide-resisting & Alkali-resisting (PH6) Waterproof : IPX-8
