Smart Identify
Smart choice you choose

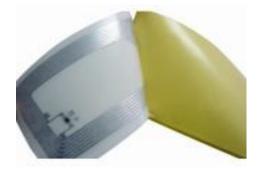

RFID Technology provides simplicity for Logistics, identification, Assets Tracking, Inventory Management, even in e-Payment, E-ticket etc., with a low cost paper label tag. It based on existing contactless infrastructure around the world that is already in use by millions of people on a daily basis, it's actually a technology that I makes peoples' lives easier

Dimensions	40*25 mm.
Case Material	PET : Aluminum
Base Material	Paper, PVC, PET
Operation Temperature	-20℃ to +55℃ (Paper) -20℃ to +65℃ (PVC) -20℃ to +85℃ (PET)
Storage Temperature	-10℃ to +50℃
Chip	Mifare 1K
Functionality	Read/Write
Operation Frequency	13.56 MHz.
Protocol	ISO14443A
Read Distance	1~15CM
Feature	Printable with offset, silkscreen Injet/Thermal Printed UID/ Serial Number
Package	By Roll/By Sheet
Application	Asset tracking, Inventory management
